

## All About Trees - Get Creative!

Have you ever thought trees can look like people?

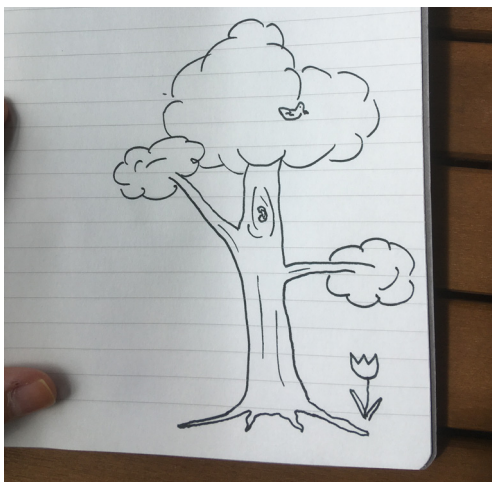

Our 350 year old mulberry tree at Hogarth's House leans to one side and needs a prop to hold it up.

It can look like an older man leaning on a walking stick.

### Make your own flip book!

1. Think about a tree you saw on your walk this week or one you can see out your window.
2. Take an old notebook and turn to the last page.
3. In the corner, draw your tree. Keep it simple!
4. On the page before that, trace the tree but change one feature - like a leaf into a finger.
5. On the page before that, trace the tree with the finger-leaf and change one other feature.
6. Continue in this way until you've turned your tree into a person.

**Flip the pages and watch the tree transform into a person!**

**Add it to our gallery!** Ask an adult to share a picture of your work on social media using **#HogarthAtHome**
